### David James Business Unit Director Invetech

**David James** has 20 years experience in managing the development of innovative new technologies and processes that have been successfully commercialised throughout the world. These projects are usually at the forefront of technology, multi-disciplinary and require global communication and coordination. His breadth of experience spanning commercial, technical and managerial aspects of technology development is a key element to this success.

David is a Business Unit Director for Invetech, a world leading contract development company servicing the Clinical Invitro Diagnostics, Biotechnology, Drug Discovery, Medical Devices and Pharmaceutical sectors since 1988. Complex project teams are formed combining Client expertise with the specialist technology development skills from Invetechs pool of over 200 technical staff to deliver integrated projects covering:

- Instrument Development
- Custom Automation
- Disposable Development

David holds a Bachelors Degree in Mechanical Engineering from the University of Melbourne.
