Mark Brydon
Director
Hydrix

Mark Brydon is a Director of Hydrix, a leading product innovation and development company.

Recent Hydrix projects with several Australian Medtech companies have included Universal Biosensors' IVD Point of Care Products, an innovative DVT treatment device, an endoscopy test device and a monitoring appliance for the Australian Institute of Sport.

Prior to Hydrix, Mark was a Team Leader at Hewlett Packard's International R&D Centre where he managed many large product development projects.

At Bosch and Rockwell, Mark led development of a number of sophisticated automotive products.

Mark has a Bachelor of Electronic Engineering and Post-Graduate qualifications in Project management.
