Professor Nigel Lovell
Graduate School of Biomedical Engineering
University of New South Wales

Email: N.Lovell@unsw.edu.au

Nigel Lovell is currently a Professor at the Graduate School of Biomedical Engineering at University of New South Wales. His research and development work has covered areas of expertise ranging from biomedical instrumentation, biological signal processing, neurophysiology and physiological modeling. His principal research interest has been on the design of an electronic vision prosthesis, and on the design and commercialisation of telehealth technologies. He has published 250+ journal articles, books, chapters, patents, refereed proceedings and abstracts. He has been awarded over \$25 million in research, consultancy and infrastructure funding in his career and involved in three start-up companies.
