Rob Douglas
Chief Operating Officer – Asia Pacific
ResMed Limited

Robert Douglas is the Chief Operating Officer, Asia Pacific of ResMed - a global leader in the manufacturing of medical devices for the sleep-disordered breathing market. His appointment to COO follows an extensive career within ResMed initially as VP Corporate Marketing; then as VP Operations responsible for ResMed's manufacturing division.

ResMed's Sydney operations employ some 1,100 employees responsible for the design, manufacturing and export of innovative medical devices to the USA, Europe and Asia-Pacific. Under Rob's leadership as COO - ResMed has been recognized with numerous business and design awards including an Australian Export Award in 2006.

Prior to ResMed, Rob served as GM, Strategy and New Business for Keycorp Ltd, an Australian electronic commerce company servicing major banks and telecommunications

companies globally. He also held senior R&D and operational roles for Teletronics Pty Ltd and was involved in the development of the implantable defibrillator.

Rob has an MBA from Macquarie University, a Bachelor of Electrical Engineering (Hons 1) and a B.Sc. in Computer Sciences from New South Wales University, Sydney.
